Guam Water Well Data

Target 58-491-N

Well Name 6th Marine Div. well 1

Coordinate Well No. 605-868

Other Names and/or numbers (explain) 6th

Office Well No. 69

Marines well #1

Data Recorded by PEW Date _____

Data Checked by _____ Date _____

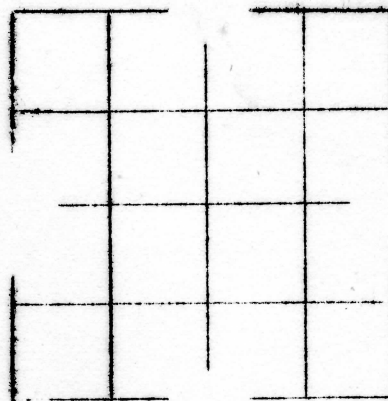

Source of Data PWC Jena files

Owner _____

Contact at _____

Driller _____

Contact at _____

Type of Well (drilled, dug, natural, etc.) _____ Date 3-19-45 to 4-1-45

Depth (ft.) 150 Meas. by _____ Date _____

(ft.) _____ Meas. by _____ Date _____

Diameter (in.) 13 3/8 O.D.

Casing: Depth (ft.) _____ Type welded Finish bottom 25' of casing perforated

Aquifer _____

Water Level (ft.) 122 Date Apr 1945 Above _____ Below ground

which is 124 ft. Above _____ Below M/W Meas. by _____

Pump: Type _____ Capacity (gpm) _____ Setting (ft.) _____

Well Yield (gpm) 10 Determined by _____ Date _____

(gpm) _____ Determined by _____ Date _____

Drawdown (ft.) _____ after _____ hours pumping at _____ gpm.

Determined by _____ Date _____

Specific Capacity (g.p.m. per ft. dd.) _____ Date _____

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Use (if well is abandoned, explain and give date) _____

Maximum Daily Pumpage (gpd) _____ Date _____

Minimum Daily Pumpage (gpd) _____ Date _____

Average pumpage (gals.) Daily _____ Monthly _____ Annually _____

Hours operated Daily _____ Monthly _____

Is water treated? (Explain) _____

Has well been repaired, cleaned or modified since it was completed?
(Explain and give dates).

Measuring point (describe, sketch, give elevation and datum used, and
date established). *elv 24' (PWC)*

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Is chemical data available? _____ Where _____

Is temperature data available? _____ Where _____

Was recorder installed? _____ When? _____ By whom? _____

Length of recorder record: From _____ to _____

Well interference: Tidal _____ Pumpage _____ Other _____

Is additional information available? (Explain) _____

LOG

Formation	From	To	Remarks
Shale, red	0	25	
clay, yellow & broken coral	25	90	
Coral, coarse	90	102	
mud, yellow & broken coral	102	122	
water strata	122	150
