Guam Water Well Data

TARGET SQ 491-P

108 Well Name ^{DU} 6TH MAR #5 Coordinate Well No. 108

Other Names and/or numbers (explain) Office Well No.

Data Recorded by PCW Date 1955

Data Checked by Date

Source of Data STA NAVAL (Longt (4-18-45)
(PWC files)

Type of Well (drilled, dug, natural, etc.) Date

Depth (ft.) 180 Meas. by Date 1945

(ft.) 190 Meas. by Date

Diameter (in.) 12

Casing: Depth (ft.) Type Finish

Aquifer

Water Level (ft.) Date Above Below

which is ft. Above Below Meas. by

Pump: Type Perless lift #52 Capacity (gpm) 60 Setting (ft.)

+ Well Yield (gpm) Determined by Date

(gpm) Determined by Date

+ Drawdown (ft.) 5' 7" after hours pumping at (prob) 60 gpm.

Determined by Date

Specific Capacity (g.p.m. per ft. dd.) Date

+ too much dd

+ 65,000 gpd (Piper)

PWC 89,000

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Use (if well is abandoned, explain and give date) _____

Maximum Daily Pumpage (gpd) _____ Date _____

Minimum Daily Pumpage (gpd) _____ Date _____

Average pumpage (gals.) Daily ⁽¹⁹⁴⁵⁾ 80,000 Monthly _____ Annually _____

Hours operated Daily _____ Monthly _____

Is water treated? (Explain) _____

Has well been repaired, cleaned or modified since it was completed?
(Explain and give dates).

Measuring point (describe, sketch, give elevation and datum used, and
date established).

Well Name _____ Coordinate Well No. _____

Office Well No. _____

+ Is chemical data available? _____ Where _____

Is temperature data available? _____ Where _____

Was recorder installed? _____ When? _____ By whom? _____

Length of recorder record: From _____ to _____

Well interference: Tidal _____ Pumpage _____ Other _____

Is additional information available? (Explain)

+ Chloride 35 ppm 1/46
