Guam Water Well Data

targeting 622-M

Well Name NAB #1 Coordinate Well No. _____

Other Names and/or numbers (explain) _____ Office Well No. 12

Data Recorded by _____ Date _____

Data Checked by _____ Date _____

Source of Data _____

Owner _____

Contact at _____

Driller 7244 CB

Contact at _____

Type of Well (drilled, dug, natural, etc.) _____ Date _____

Depth (ft.) 70± Meas. by ? from PWC Date ?

(ft.) _____ Meas. by _____ Date _____

Diameter (in.) _____

Casing: Depth (ft.) _____ Type _____ Finish _____

Aquifer _____

Water Level (ft.) _____ Date _____ Above _____
Below _____

which is _____ ft. Above _____ Meas. by _____
Below _____

Pump: Type _____ Capacity (gpm) 30 Setting (ft.) _____

Well Yield (gpm) _____ Determined by _____ Date _____

(gpm) _____ Determined by _____ Date _____

Drawdown (ft.) _____ after _____ hours pumping at _____ gpm.

Determined by _____ Date _____

Specific Capacity (g.p.m. per ft. dd.) _____ Date _____

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Use (if well is abandoned, explain and give date) aband by Acorn 33

has evidently need later by Agana Power plant

Maximum Daily Pumpage (gpd) _____ Date _____

Minimum Daily Pumpage (gpd) _____ Date _____

Average pumpage (gals.) Daily _____ Monthly _____ Annually _____

Hours operated Daily _____ Monthly _____

Is water treated? (Explain) _____

Has well been repaired, cleaned or modified since it was completed?
(Explain and give dates).

Measuring point (describe, sketch, give elevation and datum used, and date established).

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Is chemical data available? _____ Where _____

Is temperature data available? _____ Where _____

Was recorder installed? _____ When? _____ By whom? _____

Length of recorder record: From _____ to _____

Well interference: Tidal _____ Pumpage _____ Other _____

Is additional information available? (Explain) *See back of page →*
